RE: Operable Unit #1  
RI Work Plan Addendum  
U.S. DOE Fernald  
OHD 890 008 976

Dear Mr. Davis:

On July 26, 1990, the United States Department of Energy (U.S. DOE) submitted an addendum to the remedial investigation (RI) work plan for the Feed Materials Production Center in Fernald, Ohio. This addendum proposes additional sampling for operable unit #1 - Waste Pit Area (pits 1-6, clear well, burn pit). Based on United States Environmental Protection Agency (U.S. EPA) comments of August 27, 1990, U.S. DOE revised the sampling proposal and submitted it to U.S. EPA on September 26, 1990.

U.S. EPA reviewed revised sampling plan and granted verbal approval of the document on October 24, 1990, so that field work could be initiated.

If you have any questions, please contact me at (312) 886-4436.

Sincerely,

Catherine A. McCord  
Remedial Project Manager

cc: Richard Shank, OEPA  
Graham Mitchell, OEPA - SWDO  
Leo Duffy, U.S. DOE - HDQ  
Joe LaGrone, U.S. DOE - ORO
